

# CASTAIN TRAINING SYSTEMS

## Coaching

Whether you're unhappy with the results you're presently getting or you'd simply like to kick things up a notch or three . . . I'll tailor a program just for you!

Coaching takes place via phone with assignments between sessions.

## Customized Training

I've written and delivered amazing content to well over 3,000 aspiring rock stars.

Training can take place at your facility, a remote facility or via webinars, conference calls, podcasts etc!

My programs are highly interactive and you'll be happy to know that nobody has an "outer body" experience in my classroom!

Not on my watch dude!

## Consulting

Companies turn to me for help in creating and implementing strategies to get to levels that experts refer to as "awesome"!

## Speaking Engagements

Captivating an audience is not a responsibility to be taken lightly!

You need to marry great content with a speaking style that holds the audience's attention.

Most importantly, you need to create an experience that motivates the audience enough to take action!

I don't believe in "canned" talks and always create a custom experience especially for you and your team!
